Install the judder spring and seat as shown below

## REPAIR PROCEDURE CONTINUED

5. Check and adjust the clutch cable free play as shown on page 3-16 of the workshop manual.
6. Refill the crankcase with the recommended grade and quantity of engine oil.
7. Start and road test the machine to ensure correct operation.
8. After road test, recheck the engine oil level and clutch cable free play.

| Judder Spring            | 22402-KW7-900 | 1   |
| Spring Seat              | 22125-KT7-750 | 1   |
| Friction Disc            | 22201-KY1-000 | 1   |
| Gasket, R/H Engine cover | 11393-KY0-600 | 1   |
| Gasket, Oil Filter Cap   | 15459-KT0-710 | 1   |

## WARRANTY INFORMATION

Causal Part Number: 22201-166-000  
Defect Code: 0042  
F.R.T: 0.8 hour

### Note:

If you receive a customer complaint whilst still within the warranty period and the symptoms are as already described, upon your confirmation of the customer complaint, you may proceed with the installation of the above countermeasure parts under warranty. If the warranty given with the machine has expired, you must contact our After Sales team to approve for goodwill consideration. Unapproved claims submitted for repairs outside warranty will not be accepted.
